

# Kingdom Office Pavilions

Several of the kingdom offices have pavilions as part of their office. These pavilions are used for meetings and other activities associated with the offices at Kingdom and Crown events.

It is the responsibility of each officer to put up and tear down their office pavilion. It's lovely for the local group to have a group on site to assist with setup/tear down crew, but not required. What is required is communication between the event staff and the officer to be clear about who is setting up and tearing down the pavilion. If branch financial policy allows it, consider comping a small crew in exchange for tearing down all the pavilions.

The kingdom pavilions arrive at every kingdom event in the kingdom trailer. Contact the kingdom teamster to find out when the trailer and the pavilions will be on site.
